ABOUT ME

I am an engineering student passionate about Full Stack Web Development with a strong foundation in JavaScript and modern web technologies. I enjoy building responsive and user-friendly web applications and have hands-on experience with the MERN stack including MongoDB, Express.js, React.js, and Node.js. I am eager to apply my skills in developing scalable applications, solving real-world problems, and contributing to innovative development projects. I thrive in collaborative environments and continuously seek to learn new technologies and improve my development skills.
